

Licence to Take and Use Groundwater and Operate Works (Includes Permanent and Temporary trade for new licence)

What is this application form for?

Use this form to make application for a licence to take and use groundwater and to operate works.

This application combines the requirements for:

PART 1

- A Licence to Take and Use Water section 51 *Water Act* 1989 (Vic)
- A Licence to Operate Works section 67 *Water Act* 1989 (Vic)
- An amendment to an existing Licence to Take and Use Water and Licence to Operate Works sections 59A *Water Act* 1989 (Vic)

PART 2

- A Licence to Transfer a Take and Use Licence section 62 *Water Act* 1989 (Vic)

Application Check List

Complete the checklist. Incorrect information may result in your application being refused.

Your application will be returned if it is ineligible or incomplete.

Read the accompanying explanatory notes and refer to the current fee schedule which can be obtained by calling 1800 013 357 or downloaded from www.gmwater.com.au before you fill out the form.

Complete the form in full ensuring all relevant information is provided.

The Application has been completed, signed by ALL persons listed on the land title/s, and is attached.

A copy of the current Certificate of Title/s (Registered Search Statement & Plan) produced within the last three months or Notice of Acquisition/Disposition for all land/s subject of the licence application is attached. Please see attached notes for an example.

A copy of the current Company Extract produced within the last twelve months if the current or proposed licensee is a Company.

If the bore/s are on land that is NOT in the applicant's ownership, written consent from the owner is attached. See Annexure 1.

A copy of the Bore Completion Report issued by the driller for the bore is attached (or has been previously provided). The report must be received from the nominated driller prior to submitting this application.

Payment by cheque or credit card is accepted. A credit card payment authority is attached to this application form.

Send or email the form, any required documentation and the application fee to: Goulburn-Murray Water, PO Box 165, TATURA, VIC 3616 or email to licensingadmin@gmwater.com.au

Note: You may be required to advertise and GMW will contact you after lodgement of the application.

1. APPLICATION TYPE (please tick relevant boxes)

Licence to Take and Use Water and Licence to Operate Works

If you tick one of the below you MUST complete Part 2 of this form

Include a Permanent or Temporary Trade (Part 2 complete)

Amend existing Licence to Take and Use Water and Licence to Operate Works No

Please provide the Take & Use No. BEE

Please provide the Operating Licence No WLE

2. APPLICANTS DETAILS

Please list full names, initials are not acceptable

Applicant No 1: (Individual or company name).....

Date of Birth:

Applicant No 2: (Individual or company name).....

Date of Birth:

Applicant No 3: (Individual or company name).....

Date of Birth:

Applicant No 4: (Individual or company name).....

Date of Birth:

Postal Address:

.....Postcode:

Telephone number: (.....).....Mobile number:

Email:

3. DESCRIPTION OF LAND TO BE LICENSED INCLUDING:

(1) Land of which the bore/s are located AND (2) Land where water is to be taken and used

(1)Property address

(2) Land where the water is used.

| Vol | Fol | Lot No. | Plan No. | Crown Allotments | Section | Parish |
|-----|-----|---------|----------|------------------|---------|--------|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

Note: If additional lands are required please attach a separate list to this application. If any land is not in the ownership of the licensee/s please complete *Annexure 1 – Consent of Landowners (attached)*.

4. PROPOSED USE/S OF WATER

- Irrigation (area to be irrigated(ha)
- Domestic and/or Stock
- Commercial or Industrial
- Dairy Wash
- Urban Supply
- Aquaculture

**Please refer to the attached notes for more information about commercial and urban supply applications.*

5. AMENDMENTS REQUESTED TO EXISTING LICENCE DETAILS (please tick one or more boxes)

- Add service point (works number if Known WRK).....
- Remove service point (works number WRK).....
- Change extraction rate
- Add additional land (**titles for additional land/s only**) – (Complete table below)
- Remove land (complete table below)
- Amend the authorised use of water
- Increase licence volume (applies to Shepparton WSPA or Unincorporated Groundwater area)
- Decrease licence entitlement volume

Add land

Remove land

| Vol | Fol | Lot No. | Plan No. | Crown Allotments | Section | Parish |
|-----|-----|---------|----------|------------------|---------|--------|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

* Before decreasing your entitlement you may have the potential to trade any entitlement associated with this licence. Contact GMW's Customer Support Team on (03) 5826 3247 for further information.

6. REQUESTED LICENCE VOLUME

Please indicate whether this application is for a new volume **Total Volume**..... (ML/Year)

| Service Point No: | Proposed extraction Rate (ML/day) | ML/Year Volume Requested | Use Type |
|-------------------|-----------------------------------|---------------------------------|----------|
| WRK | | Increase: Decrease: | |
| WRK | | Increase: Decrease: | |
| WRK | | Increase: Decrease: | |

7. IRRIGATION DEVELOPMENT GUIDELINES (please tick the most appropriate option)

- The water will be used on land that has not been irrigated previously.
- The water will be used on land that has not been irrigated in the past 10 years.
- This application proposes to increase the current licence volume on the land that is being irrigated.
- This application proposes to increase the annual use limit on the land in the current licence
- None of the above statements are relevant to my application.

8. DECLARATION OF APPLICANTS

I confirm that the information supplied in this application is complete and correct to the best of my knowledge. I am aware that it is an offence to supply false or misleading information.

I acknowledge that GMW may release information contained in this application, at the discretion of GMW to relevant parties and organisations in accordance with relevant legislation. I approve GMW to have discussions with relevant third parties such as the Irrigation Designer, Engineers and Contractors as necessary.

Protecting your privacy

Goulburn-Murray Water (GMW) protects your privacy by collecting and handling your personal information in accordance with the requirements of the *Privacy & Data Protection Act 2014*. Your personal information is collected on this form and will be used for the purpose of administering this application and updating our records. Information collected is usually disclosed to staff involved in processing your application, contractors, connection staff and other relevant GMW staff. Failure to provide the information sought may result in processing delays or non-acceptance of your application. It may also limit our ability to be able to provide various programs or services. You may gain access to and correct your personal information. For further information please refer to our Privacy Policy at www.gmwater.com.au or call 1800 013 357 to obtain a copy of this policy.

PART 2 – PERMANENT OR TEMPORARY TRADE

(This section must be completed if you are applying for a new Take and Use Licence where trading is required)

1. APPLICATION TYPE *(please tick relevant box)*

Permanent trade

Temporary trade

MULTIPLE YEAR TEMPORARY TRANSFERS

Number of years the transfer will occur (maximum 5 years)

* Note: All multiple year transfers are subject to a Tier 2 assessment. Please refer to the explanatory notes for further information.

Sellers Licence Information

Assistance with completing the application form

This application form is required to be completed when applying for a new licence or a new licence with the inclusion of a permanent or temporary trade or to amend an existing licence.

It combines the requirements for:

- A Licence to Take and Use Water (Section 51, *Water Act 1989*) (Vic)
- A Licence to transfer a Take and use licence section 62 *Water Act 1989* (Vic)
- An amendment to an existing licence to Take and Use Water and Licence to Operate Works (Sections 59A, *Water Act 1989*) (Vic)
- Licence to Operate Works (Section 67, *Water Act 1989*) (Vic)

How do I get more information or assistance with completing this form?

Read the information included below, and if you need further assistance contact the Licensing Unit between 8.00am and 4.45pm Monday to Friday

Telephone: 1800 013 357

Facsimile: (03) 5826 3334

Email: licensingadmin@gmwater.com.au

A current company copy of an ASIC Company Search listing all directors and/or office bearers which is not more than twelve months old. Two directors or one director and one secretary must sign the form, unless the company has a sole director and secretary.</p> <p>How can I obtain a copy of my Company Search? You can obtain a company search statement by:</p> <ul style="list-style-type: none"> • Accessing the internet service at www.asic.gov.au or by phoning (03) 5177 3988. • Requesting that GMW complete the searches on your behalf. • Contacting your solicitor or legal advisor to conduct the search on your behalf (fees may apply). |

Assistance with completing the application form for Permanent or Temporary Trade

Seller:

| | |
|--|---|
| Question 1 Application type | It is important to indicate whether you applying for; <ul style="list-style-type: none"> • Permanent Trade; or • Temporary Trade • Multiyear trade up to 5 years (only applies to temporary trade) |
| Question 2 Licence Details | Please provide the licence number for the licence to be transferred. If you do not have this number please contact the Licensing Unit to obtain the number for your licence. GMW may require you to verify your identity prior to providing this information |
| Question 3 Agent Details (e.g. Broker or Solicitor) | If you have a solicitor or broker acting on your behalf, you must complete this section. GMW will send your nominated agent a copy of the licence. |
| Question 4 Applicant/s details (seller's) | All applicants must complete and sign the application form. If any of the applicants are a company, the directors must sign the form where appropriate. |
| Question 5 Volume to be transferred by seller | Please provide the total volume of the existing licence and the volume that is being transferred to the buyer. Please note the whole volume of the transfer must be unused for the current season. This will authorise GMW to surrender your existing licence as indicated in question 1 (licence details). |
| Question 6 Declaration of Applicant/s | All applicants must sign the application. If any person executes the document on behalf of another person or party, they must provide evidence of their authorisation. This can be in the form of a Power of Attorney or other legal document. |

Buyer:

| | |
|---|--|
| Question 7 Applicant/s details (buyers) | All applicants must complete and sign the application form. If any of the applicants is a company, the directors must sign the form where appropriate. |
| Question 8 Provide licence details where the water is to be transferred to (buyer) | Provide the buyers licence number and the existing volume of the licence in ML. |
| Question 9 Declaration of Applicant/s | All applicants must sign the application. If any person executes the document on behalf of another person or party, they must provide evidence of their authorisation. This can be in the form of a Power of Attorney or other legal document. |

General information and explanatory notes (retain for future reference)

Why do I need a Licence to Take and Use Groundwater and Operate Works?

Under the provisions of the *Water Act* 1989 (Vic), any person who wishes to take and use groundwater other than solely for domestic and/or stock purposes must first obtain a licence to take and use water and operate the groundwater works. A Licence to Take and Use groundwater and Operate works authorises the licensee to extract groundwater and use it for irrigation, commercial or other licensable purposes. A licence to operate works authorises the licensee to operate the specified groundwater bore/s for the purpose of extracting water.

What types of water use are licensable?

A licence is required if you intend to use the water for irrigation or for supplying a dairy shed, feedlot, piggeries or poultry farm. A licence is also required if the water is to be used on recreational or sporting fields or in conjunction with the operation of a commercial business or premises. This includes mining, aquaculture, water bottling, the provision of guest accommodation and watering commercial grounds or gardens.

Can I include lands onto my existing licence which are non-contiguous?

No, all lands must be adjoining, except where the parcels of land are separated by a road or stream. Other exceptions may apply; however, you should contact the licencing team for further clarification.

Is a licence issued for a fixed term?

A licence is generally issued for a term of up to 15 years. If during the term of a licence an application to amend the licence is approved, the amended licence will only be issued for the remainder of the original term.

Does a bore need to be constructed before I apply for a Licence to Take and Use Water and Operate Works?

If you wish to access groundwater for any licensable purpose you will need to have access to an existing bore prior to making application for a Licence to take and use water. If you do not have access to a bore and would like to construct a bore it is important to be aware that the process of constructing a bore can be costly and time consuming. GMW recommends that you fully investigate the potential for groundwater in your area prior to making application. If you decide to construct a bore you must make application for a Licence to Construct Works prior to engaging a driller to carry out the work. Application forms can be downloaded from the GMW website or are available by contacting the Licensing Unit on 1800 013 357. For information about groundwater availability in your area you can visit <http://www.depi.vic.gov.au/water/water-in-your-region> or contact GMW.

Are their limits or restrictions on accessing groundwater?

Water Supply Protection Areas (WSPAs) and Groundwater Management Areas (GMAs) have been established in areas where groundwater has been, or has the potential to be, intensively developed. Groundwater management plans apply in these areas to ensure that use of groundwater is sustainable. In WSPAs and GMAs licence entitlements are limited by a cap called a Permissible Consumptive Volume (PCV). A PCV may restrict or prevent the issuing of new licence entitlements and may mean that you can only access groundwater for irrigation or commercial use by trading licence entitlement from another licensee in that area.

You are urged to contact GMW prior to making an application to determine whether restrictions or conditions apply to groundwater entitlement in your area. For information and maps of WSPAs and GMAs, please refer to the GMW website at www.gmwater.com.au/water-resources/ground-water

Do I have to advertise my application in the newspaper or notify my neighbours?

After you lodge your application, GMW will notify you in writing if you are required to advertise and/or notify your neighbours. GMW will send out the proforma for advertising and notification to neighbours, this will include a reference number which relates to your application. If the volume sought in the application is 20ML or greater you will be required to advertise and notify neighbours, if the volume is 19ML or less, only notification of neighbours will apply.

Note: If you have notified your neighbours of your intention to construct works and extract groundwater as part of an application for a Licence to Construct Works within the last 12 months, further notification will not be required for this application providing the previously advertised entitlement volume and land description has not changed and is associated with this licence.

What does the application fee cover?

Application fees cover the full cost of undertaking a licence assessment in accordance with GMW's obligations under the *Water Act* 1989 (Vic).

In many cases a technical assessment may be required to determine if extraction of groundwater may have any adverse impacts on other groundwater users in your area or the environment. The costs of technical investigations are borne by the applicant.

Are there ongoing costs associated with having a Take and Use Licence and Operate Works?

Yes, a Licence to Take and Use Water and Operate Works is subject to annual fixed charges, issued by GMW in July each year. For specific details about which charges will apply to your licence, please contact the Licensing Unit on 1800 013 357.

Do I have to pay for the entitlement issued under the Take and use Licence and Operate Works?

Yes, if entitlement is available under the groundwater caps a one-off capital charge applies to new licence entitlements issued by GMW or where approval is given to increase an existing licence entitlement.

Note: Applications for new or increased licence volumes in the Shepparton Irrigation Region Water Supply Protection Area are not subject to payment of the capital charge.

How is the Capital Charge calculated?

There is a current capital charge for a new (or increased) licence entitlement. Please refer to the current fee schedule which can be obtained by calling 1800 013 357 or downloaded from www.gmwater.com.au before you fill out the form.

If new licence entitlement is not being issued in my area can I get access to an entitlement?

In most groundwater management units the total entitlement has been capped. In order to access entitlement, you may be able to temporary or permanent transfer existing entitlement from another licensee who does not wish to utilise their full entitlement volume.

For more information about groundwater trading in your area you can contact your local water broker or visit: <http://www.gmwater.com.au/water-resources/ground-water/groundwatertrading>

What happens after I lodge my application?

After you lodge your application GMW will notify you in writing that it has been received. The timeframe to complete an assessment may vary depending on the nature of your application. There may be delays if you are required to engage a consultant to conduct a technical assessment in support of your application. GMW cannot make a decision in relation to an application until all relevant information is received (this includes notification to neighbours and advertising). If delays are expected you will be notified by GMW. When the decision has been made to your application you will notified in writing of the outcome, either that the application has been approved or refused. Application fees are not refundable if an application is refused.

General information and explanatory notes for Permanent or Temporary Trading

What are the benefits of transferring a Licence to Take and Use Groundwater and Operate Works?

Transferring groundwater entitlement provides existing licensed groundwater users with the opportunity to maximise the value of their licence by selling their unused entitlement, and provides other groundwater users with the ability to purchase additional entitlement in areas where new entitlement is not available.

What are the rules relating to the Permanent transfer of a licence?

Rules have been established to allow the permanent transfer of groundwater entitlement while also ensuring groundwater resources are managed in a sustainable manner.

Groundwater management plans or local management rules apply in areas where Water Supply Protection Areas and Groundwater Management Areas have been established because groundwater has been, or has the potential to be, intensively developed. You are urged to contact GMW prior to making an application to ensure you have a full understanding of the conditions which apply to the permanent transfer of licence entitlement in your area. For information and maps, please refer to the GMW website at www.gmwater.com.au/water-resources/ground-water.

What are the rules relating to the Temporary transfer of a licence?

Rules have been established to allow the temporary transfer of groundwater entitlement while also ensuring groundwater resources are managed in a sustainable manner. The following general rules apply to temporary transfer of groundwater. Please note that areas governed by Groundwater Management Plans or Local Management Rules may be subject to rules that differ from those described below.

- In most cases the transfer of entitlement is limited to the term of the current financial year. The transferred volume reverts back to the sellers Licence on 1 July in the following year.
- Multiple year temporary transfers may be approved for a period up to five years subject to a Tier 2 assessment.
- Transfers can generally occur only between licensed bores located within the same trading zone. In some areas limited trading is available between zones.
- In some cases transfers may be approved between adjacent zones if the buyer and sellers bores are located within a short distance from the boundary of those zones.
- Transferred entitlement may be restricted or prohibited from being used if there are adverse impacts on other users or the environment.
- If the sellers bore is operational, the pumping system must be metered according to GMW's requirements before a transfer can be approved.
- The buyer must have a Licence to Take and Use Groundwater before an application for a temporary transfer can be approved.
- Water cannot be used by the buyer until the transfer has been approved. GMW will notify all parties of the outcome of an application in writing.
- For specific details about trading in your area please refer to the relevant management plan or rule available from <https://www.g-mwater.com.au/water-resources/ground-water> prior to lodging your application.

Applies to Permanent Upper Ovens River Water Management Plan (Management Zone 2 only):

Rules have been established to allow the permanent transfer of entitlement while also ensuring groundwater resources are managed in a sustainable manner. The following general rules apply to permanently transfer to Management Zone 2 (groundwater).

- Transfers can occur from groundwater and surface water licence holders located within the Upper Ovens Water Supply Protection Area. Please refer to the information on the GMW website.
- Transferred entitlement may be restricted or prohibited from being used if there are adverse impacts on other users or the environment.
- If the sellers licence is in operational use, the pumping system must be metered according to GMW's requirements before a transfer can be approved.
- The buyer must have a Licence to Take and Use Groundwater before an application for a permanent transfer can be approved.
- Water cannot be used by the buyer until the transfer has been approved. GMW will notify all parties of the outcome of an application in writing.
- For specific details about trading in your area refer to the fact sheets available from <https://www.g-mwater.com.au/water-resources/ground-water/management/upperovenswspa>

Applies to Temporary Management Zone 2 (Upper Ovens Water Management Plan only)

Rules have been established to allow the temporary transfer of groundwater entitlement while also ensuring groundwater resources are managed in a sustainable manner. The following general rules apply to temporary transfer to Management Zone 2 (groundwater).

- Transfer of entitlement is limited to the term of the current financial year. The transferred volume reverts back to the sellers Licence on 1 July in the following year.
- Transfers can occur from groundwater and surface water licence holders located within the Upper Ovens Water Supply Protection Area. Please refer to the information on the GMW website.
- Transferred entitlement may be restricted or prohibited from being used if there are adverse impacts on other users or the environment.
- If the sellers licence is in operational use, the pumping system must be metered according to GMW's requirements before a transfer can be approved.
- The buyer must have a Licence to Take and Use and Operate Works before an application for a temporary transfer can be approved.
- Water cannot be used by the buyer until the transfer has been approved. GMW will notify all parties of the outcome of an application in writing.
- For specific details about trading in your area refer to the fact sheets available from <https://www.gmwater.com.au/water-resources/ground-water/management/upperovenswspa>

You are urged to contact GMW prior to making an application to ensure you have a full understanding of the conditions which apply to the permanent transfer of licence entitlement in your area. For information and maps, please refer to the GMW website at www.gmwater.com.au/water-resources/ground-water.

How do I know which trading zone and trading rules apply to my licence?

Your licence document lists the trading zone applicable to your licence. A copy of your licence can be obtained by contacting the Licensing Unit (fees apply). Information relating to trading rules applicable to your licence is available from the GMW website. If you cannot access the internet please contact the Licensing Unit to request a copy of the relevant Fact Sheets by mail or email.

Applies to Upper Ovens Water Management Plan (Management Zone 2 only):

Trading rules have been established under Upper Ovens Water Management Plan. Your licence document lists the management zone applicable to your licence. A copy of your licence can be obtained by contacting the Licensing Unit (fees apply).

Plans and Rules have been established where groundwater has been, or has the potential to be, intensively developed. If you intend to apply for a permanent licence transfer you are urged to contact GMW prior to making an application to ensure you have a full understanding of the conditions which apply to the permanent transfer of licence entitlement in your area. For information and maps, please refer to the GMW website at www.gmwater.com.au/water-resources/ground-water. Information relating to trading rules please contact the Licensing Unit to request a copy of the relevant Fact Sheets by mail or email.

Where can I get more information about trading opportunities and current prices in my area?

You should visit the GMW website to obtain information about trading rules and restrictions applicable to your licence before proceeding to locate a buyer or seller for your licence volume. If you are still unsure about the rules you should contact the Licensing Unit to discuss your proposal.

GMW cannot provide you with information on the current market value of water; however if you decide to proceed with a transfer, information about market activity and pricing can be obtained from your local water broker. Details of brokers in your area can be located in the yellow pages or through advertisements in your local newspaper.

How does GMW assess an application?

When assessing an application for the permanent transfer of a licence GMW must consider any impacts on existing authorised users of groundwater and the environment. If this assessment indicates that there is a significant risk of impacting other users or the environment additional information will be required from the applicant. GMW may require that technical investigations, hydrogeological assessments and/or pumping tests are undertaken to demonstrate that the proposal will not adversely impact upon existing authorised groundwater users and the environment. Completion of this work, if applicable, will be required before the transfer of groundwater entitlement is considered. Please note that the costs of any technical work are paid by the applicant. If you are required to undertake such work you will be notified by GMW.

What volume of water is available to the buyer when a Permanent transfer is approved?

The permanent transfer of a licence to take and use water includes:

- (a) transfer of the licence entitlement for the requested volume from the sellers to the buyer's existing or new licence; and
- (b) transfer of the licence entitlement volume adjusted to reflect any restrictions on the available percentage of licence volume at the time of the approval of the transfer.

Where restrictions have been set (e.g. where less than 100% of licence volume is made available in a given season) the licence volume that will be available for the purchaser to use upon approval of the transfer will be adjusted to reflect the available percentage of licence volume at the time of the transfer.

For example if a seller permanently transfers 50ML of their licence where the allocation volume is limited to 50%, the purchaser will receive a 50ML licence with 25ML available for use in the first year.

What volume of water is available to the buyer when a Temporary transfer is approved?

The temporary transfer of a licence involves the transfer licence entitlement from the sellers licence to the buyers licence. Entitlement that has been temporarily transferred, takes into account any restrictions that may be in place on the buyers licence.

Where restrictions have been set (e.g. where less than 100% of licence volume is made available in a given season) the transferred volume which will be available for the purchaser to use upon approval of the transfer will be adjusted to reflect the available percentage of licence volume at the time of the approval of the transfer.

For example if a seller temporarily transfers a 100ML Licence (unused) in an area where the allocation volume is limited to 70%, the purchaser will be the recipient of a 100ML Licence entitlement with only 70ML available to use for the term of the transfer.

When can the buyer Take and Use Water and Operate Works under the licence?

The buyer can Take and Use Water and Operate Works upon written confirmation from GMW that the transfer has been approved. Use may be restricted from time to time in accordance with the conditions of the licence.

Why are there different application fees for Temporary trading?

The fee structure reflects the cost of the work required by GMW to assess and determine applications for temporary licence transfers in accordance with its legal obligations.

Tier 1:

An application to transfer a volume which is less than 2ML, or up to 10% of the buyers licence volume, is generally considered to have a lower risk of impacting other users or the environment and only requires a Tier 1 assessment. Note up to 10% of the licence volume is cumulative so an applicant cannot undertake multiple temporary transfers for 10% of their licence volume in the same season under a Tier 1 assessment.

Tier 2:

Applications for transfers greater and 2ML or 10% of the licence volume require a Tier 2 assessment which includes a site inspection and technical assessment.

When assessing an application for the temporary transfer of a licence GMW must consider any impacts on existing authorised users of groundwater and the environment. When the application is lodged it will be assessed initially to determine whether the transfer of water poses a risk of having any adverse impacts at the proposed site where the water will be taken and used.

If this assessment indicates that there is a potential risk of impacting other users or the environment additional information will be required from the applicant. GMW may require that technical investigations, hydrogeological assessments and/or pumping tests are undertaken to demonstrate that the proposal will not adversely impact upon existing authorised groundwater users and the environment. Completion of this work, if applicable, will be required before the transfer of groundwater entitlement is considered. Please note that the costs of any technical work are paid by the applicant. If you are required to undertake such work you will be notified by GMW. A fee may be applicable to review the additional information supplied by the applicant.
